

May 18<sup>th</sup>, 2009

Dear Parents,

This June, LAB will be offering online summer school for your student. These classes will be offered to assist your student with recovery credit in the event that they earned a D or an F during the school year. Upon completion of the application with payment, students will be given a specialized program, user ID and password, along with directions on how to use the system. All work will be done online at home culminating with an online final to be administered at LAB before July 31<sup>st</sup>.

The curriculum for online learning is self-paced. It is not for everyone, but it can be a benefit to your student when it comes to recovery credit. Your student should be capable of logging into a computer website, following directions, and keeping pace with a program that does not include a classroom teacher. For some, this will be easy; for others, a challenge, but there is technical support available during the summer

Below you will find the courses offered as well as the system requirements for your computer. Each course is \$100 and all textbooks are e-books included with the curriculum. If you have any further questions, please contact me through email and I will respond to you promptly.

Looking to the Future~

Kimberly Hardy  
Online Studies Coordinator

The following is a list of courses offered online through LAB this summer. These are recovery credit only (except for Life Science). Courses are \$100 and will begin in June and all work will be due, including the final, by July 31<sup>st</sup>. Once your student turns in their application with payment, the course will be set-up and further instructions will be given. System Requirements are Internet Explorer 6 or higher or Safari 3 fully updated. Simply print the form on the next page and return to the school office.

1. Pre-Algebra
2. Algebra 1A
3. Algebra 1B
4. Algebra 2 (First Semester)
5. Algebra 2 (Second Semester)
6. Geometry
7. Personal Finance: this course fulfills LAB graduation requirements in lieu of geometry.
8. English 9 (first or second semester)
9. English 10 (first or second semester)
10. English 11 (first or second semester)
  
11. Life Science\*\*: this course does not fulfill UC or Cal State requirements. It is for LAB graduation requirements for those going to community college.

**Please note the course you are interested in pursuing this summer. All courses are \$100 and up to two courses may be taken at a time.**
